Explanation of Operating Results

Despite times of uncertainty there are always opportunities to invest within equity markets. The goal of BKI is to always invest in high quality businesses with a strong balance sheet, competitive advantage and managed by capable and trustworthy people. BKI seeks to invest in businesses that will pay an attractive and sustainable dividend stream throughout the cycle.

BKI's Revenue from investment portfolio was up 14.8% to \$72.8 million. The result was boosted by higher ordinary dividends received over the last year from New Hope Corporation, Woodside Energy, Telstra Corporation, Yancoal Australia, Lindsay Australia and Macquarie Group.

BKI's interest received was \$1.6 million, up substantially on FY2022 following a significant rise in interest rates during the year. BKI's Net Operating Profit After Tax, before special investment revenue, was a record \$65.1 million, an increase of 12.0% over the previous corresponding period. BKI's basic earnings per share before special investment revenue was 10.8% higher to 8.68 cents per share.

Special Investment Revenue was lower in FY2023, following the \$42.7 million in special dividends received in FY2022. Special Dividends received in FY2023 from New Hope Corporation, Ampol Limited and Smartgroup Limited totalled \$5.0 million.

BKI's Net Operating Profit After Tax, including special investment revenue for FY2023 of \$70.1 million, fell 31.3% on the previous corresponding period. BKI's FY2023 basic earnings per share, including special investment revenue, was 9.35 cents per share.

BKI's Total Shareholder Return was positive 9.2% for the year to 30 June 2023. The S&P/ASX 300 Accumulation Index returned 14.4% for the same period. BKI's Total Shareholder Returns including franking credits for the year to 30 June 2023 was positive 11.6%, compared to the Index return of 16.0%.

Chair's Address

Dear Shareholders,

I am pleased to enclose the 20th Annual Report of BKI Investment Company Limited (BKI) for the year to 30 June 2023 ("FY2023").

Despite a strong performance from the equity markets in FY2023, the last year saw many challenges emerge. The aftermath of COVID19 and flooding the world economy with cash through global stimulus packages distributed during 2020 and 2021 became evident. The global economy has greatly benefited from a variety of stimulus packages over the last couple of years, creating a huge tailwind for households, consumers and businesses. Labour shortages have also endured, pushing up wages and other costs to businesses. Inventory shortages have continued to impact pricing and availability of goods and services across the world. In addition, the war in Ukraine continues to disrupt global energy supply.

These factors have led to a sharp rise in inflation, forcing Central Banks around the world to lift interest rates at an aggressive rate. In Australia, the official cash rate has increased from 0.85% in June 2022 to 4.10% in June 2023. This is the sharpest rise in rates ever.

Global equity markets were extremely strong for the year. Domestically the S&P/ASX 300 Accumulation Index generated a very robust 14.4% return for the year. Company profits led by Utilities, Energy, Resources and Communications improved and dividends paid by Australian equities increased again throughout the year.

The strong performance of the Australian equity market highlights that there is still likely large cash balances looking for opportunities. However, the dramatic rises in interest rates is beginning to take a toll on many parts of the economy. While we are positive on the future of the Australian economy, we are mindful of further interest rate increases, recession risks, the potential mortgage cliff, rental issues and a general slowdown of consumer spending.

Result Highlights

BKI's Revenue from investment portfolio was up 14.8% to \$72.8 million. The result was boosted by higher ordinary dividends received over the last year from New Hope Corporation, Woodside Energy, Telstra Corporation, Yancoal Australia, Lindsay Australia and Macquarie Group.

BKI's interest received was \$1.6 million, up substantially on FY2022 following a significant rise in interest rates during the year. BKI's Net Operating Profit After Tax, before special investment revenue, was a record \$65.1 million, an increase of 12.0% over the previous corresponding period. BKI's basic earnings per share before special investment revenue was 10.8% higher to 8.68 cents per share.

Special Investment Revenue was lower in FY2023, following the \$42.7 million in special dividends received in FY2022. Special Dividends received in FY2023 from New Hope Corporation, Ampol Limited and Smartgroup Limited totalled \$5.0 million.

BKI's Net Operating Profit After Tax, including special investment revenue for FY2023 of \$70.1 million, fell 31.3% on the previous corresponding period. BKI's FY2023 basic earnings per share, including special investment revenue, was 9.35 cents per share.

Dividends

The BKI Board has declared a final ordinary dividend of 4.00cps, up 10% from 3.65cps in the previous corresponding period. This 4.00cps ordinary dividend is the highest ordinary dividend paid by BKI in its 20 years and takes total dividends paid for the FY2023 year to 8.20cps.

Including the payment of the FY2023 dividend, BKI has now paid out over \$1.31 per share in dividends since listing on the ASX twenty years ago. Including franking credits BKI has paid out over \$1.0 billion to Shareholders since IPO.

Based on the FY2023 dividends of 8.20cps, the current historical BKI grossed up dividend yield is 6.8% based on a tax rate of 30% and a share price of \$1.73, as at 30 June 2023.

Chair's Address (continued)

Management Expense Ratio (MER)

BKI's MER as at 30 June 2023 was 0.18%. The Board and Portfolio Managers are shareholders in BKI. We invest for the long term and do not charge excessive external portfolio management fees or any performance fees. Our focus is on creating wealth for all shareholders by keeping costs low, increasing fully franked dividends and generating capital growth over the long-term. BKI has no debt and thus shareholder returns are not diluted by interest payable on such a facility.

BKI's MER continues to compare very favourably to other externally managed LICs, ETFs and managed funds in the domestic market that provide a similar broad-based exposure to Australian equities.

Outlook

Post the COVID19 years we continue to experience the secondary effects of flooding the world economy with cash through global stimulus packages distributed during 2020 and 2021. These actions have led to a sharp rise in inflation, forcing Central Banks around the world to lift interest rates at an aggressive rate. We expect to see further challenges emerge following high inflation and rising interest rates over the short to medium term.

However, as we have explained many times before, despite times of uncertainty there are always opportunities to invest within equity markets. Our goal is to always invest in high quality businesses with a strong balance sheet, competitive advantage and managed by capable and trustworthy people. We seek to invest in businesses that will pay us an attractive and sustainable dividend stream throughout the cycle.

In this environment we target those companies that are more defensive in nature and display a competitive advantage. Those companies who have pricing power and the ability to pass on prices to their customers to ensure continued profitability, earnings growth and dividend growth for our shareholders should perform well. We aim to invest in these businesses at a reasonable price with a view of holding them for the long-term.

BKI holds a portfolio of high-quality dividend paying stocks and has no debt. We are well positioned to take advantage of any market opportunity which may present itself over the year ahead with 8.3% of the portfolio currently in cash.

Robert Millner AO
Chair

Portfolio Manager's Report

Dear Shareholders,

Contact Asset Management, as the Investment Manager of BKI Investment Company, is pleased to include our Investment Report for FY2023.

Market Commentary

In FY2022, most Global equities fell hard on increased concerns over rising inflation and the chance of an economic recession. However, a year on and following a wave of negative sentiment and monetary policy headwinds, the returns for FY2023 in Global equities markets have been quite extraordinary. The following chart is illustrative.

Central Bank action continues to be a major focus for markets. In June 2023, the Bank of England (BoE) upped the ante on Britain's chronic inflation, headline inflation 8.7%, by raising its benchmark rate by 50bps to 5.0%; its highest level since September 2008. The BoE flagged that more action might be needed, as it monitors faster than expected wages growth, relatively buoyant consumer spending, and sticky inflation in the services sector. The Bank of Canada defied expectations by restarting its interest-rate tightening campaign, raising their official cash rate by +25bps to 4.75% saying the economy is running too hot. In the US, more US FOMC hikes are likely if Powell is right, with Powell telling senators that officials think "it will be appropriate to raise rates again this year, and perhaps twice".

In Australia, the labour market shows no sign of slowing, supported by still elevated job vacancies amid mixed economic conditions. The unemployment rate held steady at 3.60%, with 76k jobs added in May. The RBA lifted rates for the 10th time in FY2023 in early May, taking the RBA cash rate to 4.10%. This latest hike by the RBA was unexpected.

Portfolio Manager's Report (continued)

The positive news on domestic inflation arrived late in the year. The closely watched CPI number for May was lower than expected at 5.6% versus expectations of a 6.1% increase (and notably lower than the 6.8% printed in April). Market economists remain divided on whether the RBA needs to continue increasing rates in the coming months.

On that topic, the wave of interest rate rises is certainly impacting consumer confidence and market analysts have eased earnings expectations for the market in recent months. Earnings per Share (EPS) expectations on a 12-month forward basis for the S&P/ASX 300 is -3.6% and Dividends per Share (DPS) growth is -3.0%. The Price to Earnings Multiple (P/E) of the market is just under 16x (based on a 12-month forward basis) and the current dividend yield for the market is just under 3.9%.

Commodity prices have been mixed, however companies producing Iron Ore, Oil and Gas, Thermal and Met Coal, Nickel and Copper are still generating enormous profits. The Australian Dollar also continues to trade under US\$0.70, and ended the year at US\$0.67 providing a tailwind for those commodity focused companies reporting in US Dollars.

Iron ore has bounced back to US\$113/t, having flirted with US\$100/t in May. Having recently broken through US\$2,000/oz in April, gold prices have generally tracked lower and ended June at \$1,912/oz. Despite day-to-day volatility, oil prices (WTI) continue to hover around the US\$70/bbl range. Thermal coal traded lower throughout the June quarter and closed the period just under US\$150/t. The energy market is expected to get more support as we approach the northern hemisphere winter later in 2023.

Portfolio Movements

In the first half of FY2023, we invested \$34 million adding to positions in Ampol Limited, Equity Trustees, Orora Limited, ARB Corporation and Harvey Norman Holdings. Three new names were added to the BKI portfolio, including Yancoal Australia, Nine Entertainment and James Hardie.

In the second half of FY2023, BKI invested a further \$70 million, including National Australia Bank, Yancoal Australia, Sonic Healthcare, Telstra Corporation, Wesfarmers, Smart Group and Ramsay Healthcare. BKI realised approximately \$49 million worth of sales with the exit of positions in Invocare Limited, Pandal Group, Perpetual Limited and James Hardie.

As at the end of June 2023, there were 39 stocks within the BKI Portfolio, with the Top 25 holdings and cash accounting for 92.0% of the total Portfolio. The Investment Portfolio (including cash) was valued at \$1.39 billion, with the cash position of \$115 million representing 8.3%.

BKI Share Purchase Plan (SPP)

BKI recently completed a SPP, raising \$73 million. The SPP provided existing shareholders the opportunity to subscribe for up to \$30,000 worth of new BKI shares, without incurring brokerage. SPP Shares are eligible for the fully franked final dividend of 4.00cps. Each Director participated for the maximum amount of \$30,000 new SPP Shares. The SPP Issue Price of \$1.66 represented an 8% discount to BKI's Pre-tax NTA.

The SPP funds are being used to continue to deliver on BKI's investment strategy by investing for the long term in profitable, high income producing, well managed companies. BKI believes that the current market is offering an attractive opportunity for the long-term investor with many companies within the BKI portfolio offering:

- Fully franked dividends that are growing and an attractive yield
- Growth prospects and a reasonable Return on Equity with which to reinvest
- Sound Balance Sheets
- Good Management Teams
- Attractive Valuation Metrics

Directors' Report

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of BKI Investment Company Limited (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 30 June 2023.

Directors

The following persons were directors of BKI Investment Company Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Robert Dobson Millner AO	Non-Executive Director and Chair
David Capp Hall AM	Non-Executive Director
Ian Thomas Huntley	Non-Executive Director
Alexander James Payne	Non-Executive Director
Jacqueline Ann Clarke	Non-Executive Director

Principal activities

The principal activities of the Group are that of a Listed Investment Company (LIC) primarily focused on long-term investment in ASX listed securities. There were no significant changes in the nature of those activities during the year.

Dividends

Dividends paid during the financial year were as follows:

	Consolidated	
	2023 \$'000	2022 \$'000
Final ordinary dividend for the year ended 30 June 2022 of 3.65 cents per share (2021: 3.00 cents per share) fully franked at the tax rate of 30%, paid on 30 August 2022	27,122	22,170

Total dividends paid	65,870	51,800

Operating results

BKI's Revenue from its investment portfolio was up 14.8% to \$72.8 million. The result was boosted by higher ordinary dividends received over the last year from New Hope Corporation, Woodside Energy, Telstra Corporation, Yancoal Australia, Lindsay Australia and Macquarie Group.

BKI's interest received was \$1.6 million, up substantially on FY2022 following a significant rise in interest rates during the year. BKI's Net Operating Profit After Tax, before special investment revenue, was a record \$65.1 million, an increase of 12.0% over the previous corresponding period. BKI's basic earnings per share before special investment revenue was 10.8% higher to 8.68 cents per share.

Special Investment Revenue was lower in FY2023, following the \$42.7 million in special dividends received in FY2022. Special Dividends received in FY2023 from New Hope Corporation, Ampol Limited and Smartgroup Limited totalled \$5.0 million.

Directors' Report (continued)

BKI's Net Operating Profit After Tax, including special investment revenue for FY2023 of \$70.1 million, fell 31.3% on the previous corresponding period. BKI's FY2023 basic earnings per share, including special investment revenue, was 9.35 cents per share.

For the year to 30 June 2023, BKI's Total Shareholder Return was positive 9.2%. The S&P/ASX 300 Accumulation Index returned 14.4% for the same period. BKI's Total Shareholder Returns including franking credits for the year to 30 June 2023 was positive 11.6%, compared to the Index return of 16.0%.

BKI's Net Portfolio Return (after all operating expenses, provisions and payment of both income and capital gains tax and the reinvestment of dividends) for the year to 30 June 2023 was positive 10.7% compared to the S&P/ASX 300 Accumulation Index which returned negative 14.4% for the same period.

Review of operations

Operating expenses increased to \$2.4 million (2022: \$2.1 million) with BKI's MER increasing to 0.18% (2022: 0.17%). BKI's MER continues to compare very favourably to other externally managed LICs, ETFs and managed funds in the domestic market that provide a similar broad-based exposure to Australian equities.

In the first half of FY2023, BKI invested \$34 million, adding to positions in Ampol Limited, Equity Trustees, Orora Limited, ARB Corporation and Harvey Norman Holdings. Three new names were added to the BKI portfolio, including Yancoal Australia, Nine Entertainment and James Hardie.

In the second half of FY2023, BKI invested a further \$70 million, including National Australia Bank, Yancoal Australia, Sonic Healthcare, Telstra Corporation, Wesfarmers, Smart Group and Ramsay Healthcare. BKI realised approximately \$49 million worth of sales with the exit of positions in Invocare Limited, Pandal Group, Perpetual Limited and James Hardie.

As at the end of June 2023, there were 39 stocks within the BKI Portfolio, with the Top 25 holdings and cash accounting for 92.0% of the total Portfolio. The Investment Portfolio (including cash) was valued at \$1.39 billion, with the cash position of \$115 million representing 8.3%.

Financial position

Net assets of the Group increased during the year to \$1,301.1 million (2022: \$1,171.6 million) as a result of raising \$73 million by way of Share Purchase Plan and the increased value of the investment portfolio.

Employees

The Group had no employees as at 30 June 2023 (2022: nil).

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the financial year.

Matters subsequent to the end of the financial year

Since the end of the year the Directors have declared a final ordinary dividend for the year ended 30 June 2023 of 4.00 cents per share fully franked at the tax rate of 30%, payable on 29 August 2023, but not recognised as a liability at the year end.

No other matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Likely developments and expected results of operations

The operations of the Group will continue with planned long-term investments in Australian equities and fixed interest securities. The Group will continue its strategy of investing for the long term in a portfolio of assets to deliver shareholders an increasing income stream and long-term capital growth. The success of this strategy will be strongly influenced by the performance of the underlying investee companies, their share price movements, and capital management and income distribution policies.

Directors' Report (continued)

The performance of these companies will be influenced by general economic and market conditions such as economic growth rates, interest rates and inflation. Performance could also be influenced by regulatory change. These external conditions are difficult to predict and not within the control of the Group, making it difficult to forecast the future results of the Group.

However, BKI is a research driven, long-term manager focusing on investing in well managed, profitable companies, focusing on the merits of individual companies rather than market and economic trends. BKI will continue to implement prudent business practice to allow the achievement of the Group's Corporate Objectives and Business Strategy.

Environmental regulation

The Group is not subject to any significant environmental regulation under Australian Commonwealth or State law.

Directors' Report (continued)

Remuneration Report

Remuneration Report (Audited)

The remuneration report details the key management personnel remuneration arrangements for the Group, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Service agreements
- Share-based compensation
- Additional disclosures relating to key management personnel

Principles used to determine the nature and amount of remuneration

This remuneration report outlines the Director and Executive remuneration arrangements of the Group in accordance with the requirements of the Corporations Act 2001 and its Regulations. For the purposes of this report, Key Management Personnel of the Group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly.

The Company has externalised its investment management, accounting and company secretarial functions to Contact Asset Management Pty Limited, and currently has no employees.

Remuneration Policy

The Board is responsible for determining and reviewing remuneration arrangements, including performance incentives, for the Directors themselves and the Company Secretary. It is the Group's objective to provide maximum shareholder benefit from the retention of a high quality Board and Executive team by remunerating Directors and Key Management Personnel fairly and appropriately with reference to relevant employment market conditions, their performance, experience and expertise.

Elements of Director and Key Management Personnel (KMP) remuneration

The Board's policies for determining the nature and amount of remuneration for Key Management Personnel of the Group is as follows:

- The Director Remuneration Policy and Executive Remuneration Policy are developed by the Remuneration Committee and approved by the Board. Professional advice is sought from independent external consultants if deemed appropriate.
- Key Management Personnel are eligible to receive a base fee, or salary and superannuation, combined with performance incentives if deemed appropriate by the Board.
- Performance incentives are only paid once predetermined key performance indicators have been met.
- Incentives paid in the form of shares are intended to align the interests of the Key Management Personnel with those of the shareholders.
- The Remuneration Committee reviews the remuneration packages of Key Management Personnel annually by reference to the Group's performance, KMP performance and comparable information from industry sectors.

The performance of Key Management Personnel is assessed annually by the Board. Assessment of performance incentives offered is conducted annually, based on the growth of shareholder and portfolio returns. The Board may exercise discretion in relation to approving incentives and can recommend changes to the Remuneration Committee's recommendations. Any changes must be justified by reference to measurable performance criteria. The policies are designed to attract the highest calibre of KMP and reward them for performance results leading to long-term growth in shareholder wealth.

All remuneration paid to Key Management Personnel is valued at the cost to the Group and expensed.

Directors' Report (continued)

Remuneration Report (continued)

Non-executive directors remuneration

The Board's policy is to remunerate Non-Executive Directors at market rates for time, commitment and responsibilities. The Remuneration Committee determines payments to the Non-Executive Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at the Annual General Meeting.

The combined annual payment to all Non-Executive Directors is capped at \$400,000 until shareholders, by ordinary resolution, approve some other fixed sum amount. The aggregate pool of remuneration paid to Non-Executive Directors was approved by shareholders on 18 October 2022. This amount is to be divided amongst the Directors as the Board may determine. These fees exclude any additional fee for any service-based agreement which may be agreed from time to time and the reimbursement of out of pocket expenses. No such payments were made in 2023 financial year (2022: nil).

Performance-based remuneration

BKI previously established the BKI Executive Incentive Scheme to form part of the remuneration packages of the Group's executive team.

The aims of the BKI Incentive Scheme are:

- (1) To promote superior performance at BKI over both the short and more importantly, long term.
- (2) To ensure remuneration is fair and reasonable market remuneration to reward staff.
- (3) To promote long term staff retention and alignment.

In July 2021 the Remuneration Committee resolved to cease making any new grants under the BKI Incentive Scheme until further notice.

On 31 May 2022, the services agreement between BKI and CAS ceased and in accordance with the BKI Executive Incentive Scheme, all unpaid and/or unallocated incentives were forfeited. At 30 June 2023, there were no participants or entitlements under the Scheme.

Use of remuneration consultants

The Group did not engage remuneration consultants during the year ended 30 June 2023.

Voting and comments made at the Company's 18 October 2022 Annual General Meeting ('AGM')

At the 18 October 2022 AGM, 95.28% of the votes received supported the adoption of the remuneration report for the year ended 30 June 2022. The Company did not receive any specific feedback at the AGM regarding its remuneration practices.

Notes to the Financial Statements

for the year ended 30 June 2023

Note 1. General information

The financial statements cover BKI Investment Company Limited as a Group consisting of BKI Investment Company Limited and the entities it controlled at the end of, or during, the year. The financial statements are presented in Australian dollars, which is BKI Investment Company Limited's functional and presentation currency.

BKI Investment Company Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Suite 302, Level 3
1 Castlereagh Street
Sydney NSW 2000

A description of the nature of the Group's operations and its principal activities are included in the directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 18 July 2023. The directors have the power to amend and reissue the financial statements.

Note 2. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, financial assets at fair value through other comprehensive income.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 3.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the Group only. Supplementary information about the parent entity is disclosed in note 21.

Notes to the Financial Statements (continued)

Note 2. Significant accounting policies (continued)

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of BKL Investment Company Limited ('Company' or 'parent entity') as at 30 June 2023 and the results of all subsidiaries for the year then ended. BKL Investment Company Limited and its subsidiaries together are referred to in these financial statements as the 'Group'.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Where the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Financial instruments

Recognition

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below.

The Group has two portfolios of securities, the investment portfolio and the trading portfolio. The investment portfolio relates to holdings of securities which the Directors intend to retain on a long-term basis and the trading portfolio comprises securities held for short term trading purposes.

Securities within the investment portfolio are classified as 'financial assets measured at fair value through other comprehensive income', and are designated as such upon initial recognition. Securities held within the trading portfolio are classified as 'mandatorily measured at fair value through profit or loss' in accordance with AASB 9.

Valuation of investment portfolio

Listed securities are initially brought to account at market value, which is the cost of acquisition, and are re-valued to market values continuously. Movements in carrying values of securities are recognised as Other Comprehensive Income and taken to the Revaluation Reserve.

Where disposal of an investment occurs, any revaluation increment or decrement relating to it is transferred from the Revaluation Reserve to the Realised Capital Gains Reserve.

Valuation of trading portfolio

Listed securities are initially brought to account at market value, which is the cost of acquisition, and are re-valued to market values continuously.

Movements in carrying values of securities in the trading portfolio are taken to profit or loss through the income statement.

Notes to the Financial Statements (continued)

Note 2. Significant accounting policies (continued)

Fair value

Fair value is determined based on last sale price for all quoted investments.

Revenue

Sale of investments occurs when the control of the right to equity has passed to the buyer.

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

Dividend and distribution revenue is recognised when the right to receive a dividend or distribution has been established.

All revenue is stated net of the amount of goods and services tax (GST).

Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

BKI Investment Company Limited (the 'head entity') and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime. The head entity and each subsidiary in the tax consolidated group continue to account for their own current and deferred tax amounts. The tax consolidated group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Notes to the Financial Statements (continued)

Note 2. Significant accounting policies (continued)

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year. Where a retrospective restatement of items in the statement of financial position has occurred, presentation of the statement as at the beginning of the earliest comparative period has been included.

Rounding of amounts

The Company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the annual reporting period ended 30 June 2023. The Group has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

Note 3. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Deferred tax balances

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. In accordance with AASB 112: *Income Taxes* deferred tax liabilities have been recognised for Capital Gains Tax on unrealised gains in the investment portfolio at the current tax rate of 30%.

As the Group does not intend to dispose of the portfolio, this tax liability may not be crystallised at the amount disclosed in note 7. In addition, the tax liability that arises on disposal of those securities may be impacted by changes in tax legislation relating to treatment of capital gains and the rate of taxation applicable to such gains at the time of disposal.

Apart from this, there are no other key assumptions or sources of estimation uncertainty that have a risk of causing a material adjustment to the carrying amount of certain assets and liabilities within the next reporting period.

Note 4. Operating segments

Identification of reportable operating segments

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The Board has been identified as the chief operating decision-maker, as it is responsible for allocating resources and assessing the performance of the operating segments. The Group operates solely in the securities industry in Australia and has no reportable segments.

Fair value measurement

BKI measures the fair value of its trading portfolio and investment portfolio with reference to the following fair value measurement hierarchy mandated by accounting standards:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Both the trading portfolio and investment portfolio are classified as Level 1, and are measured in accordance with the policy outlined in note 2.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Notes to the Financial Statements (continued)

Note 11. Equity – Share capital (continued)

Share buy-back

There is no current on-market share buy-back.

Capital risk management

The Group's objective in managing capital is to provide shareholders with attractive investment returns through access to a steady stream of fully franked dividends and enhancement of capital invested, with goals of paying an enhanced level of fully franked dividends and providing attractive total returns over the medium to long term.

The Group recognises that its capital will fluctuate in accordance with market conditions, and in order to maintain or adjust the capital structure the Group may adjust the amount of dividends paid, issue new shares from time-to-time or return capital to shareholders.

The Group's capital consists of shareholders' equity plus net debt. The movement in equity is shown in the Consolidated Statement of Changes in Equity. At 30 June 2023 net debt was \$nil (2022: \$nil).

The capital risk management policy remains unchanged from the 30 June 2022 Annual Report.

(c) Franking accounting balance		
Balance of the franking account after allowing for tax payable in respect of the current year's profits and the receipt of dividends recognised as receivables	47,516	43,538
Franking credits available for subsequent financial years based on a tax rate of 30%	47,516	43,538
Estimated impact on the franking account of dividends declared but not recognised as a liability at the end of the financial year (refer below)	(13,573)	(14,808)
Net imputation credits available for future dividends	33,943	28,730
Maximum fully franked dividends payable from available franking credits at the tax rate of 30% (2022: 30%)	79,200	67,035

The above amounts represent the balance of the franking account as at the end of the financial year, adjusted for:

- franking credits that will arise from the payment of the amount of the provision for income tax at the reporting date
- franking debits that will arise from the payment of dividends recognised as a liability at the reporting date
- franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date

Dividends declared after balance date

Since the end of the year the Directors have declared a final ordinary dividend for the year ended 30 June 2023 of 4.00 cents per share fully franked at the tax rate of 30% (2022: final ordinary dividend of 3.65 cents per share and a special dividend of 1.0 cents per share, both fully franked at the tax rate of 30%), payable on 29 August 2023, but not recognised as a liability at the year end.

Notes to the Financial Statements (continued)

Note 15. Financial instruments

The risks associated with the holding of financial instruments such as investments, cash, bank bills and borrowings include market risk, credit risk and liquidity risk. The Board has approved the policies and procedures that have been established to manage these risks. The effectiveness of these policies and procedures is reviewed by the Audit & Risk Committee.

Capital risk management

The Group invests its equity in a diversified portfolio of assets that aim to generate a growing income stream for distribution to shareholders in the form of fully franked dividends.

The capital base is managed to ensure there are funds available for investment as opportunities arise. Capital is increased annually through the issue of shares under the Dividend Reinvestment Plan. Other means of increasing capital include Rights Issues, Share Placements and Share Purchase Plans.

Financial instruments' terms, conditions and accounting policies

The Group's accounting policies are included in Note 1, while the terms and conditions of each class of financial asset, financial liability and equity instrument, both recognised and unrecognised at the balance date, are included under the appropriate note for that instrument.

Net fair values

The carrying amounts of financial instruments in the balance sheets approximate their net fair value determined in accordance with the accounting policies disclosed in Note 1 to the accounts.

Credit risk

The risk that a financial loss will occur because a counterparty to a financial instrument fails to discharge an obligation is known as credit risk.

The credit risk on the Group's financial assets, excluding investments, is the carrying amount of those assets. The Group's principal credit risk exposures arise from the investment in liquid assets, such as cash and bank bills, and income receivable.

Cash and bank bills are reviewed monthly by the Board to ensure cash is only placed with pre-approved financial institutions with low risk profiles (primarily "Big 4" banks) and that the spread of cash and bank bills between banks is within agreed limits. Income receivable is comprised of accrued interest and dividends and distributions which were brought to account on the date the shares or units traded ex-dividend.

There are no financial instruments overdue or considered to be impaired.

Market risk

Price risk

Market risk is the risk that changes in market prices will affect the fair value of a financial instrument.

The Group is a long term investor in companies and trusts and is therefore exposed to market risk through the movement of the share/unit prices of the companies and trusts in which it is invested.

The market value of the portfolio changes continuously because the market value of individual companies within the portfolio fluctuates throughout the day. The change in the market value of the portfolio is recognised through the Revaluation Reserve. Listed Investments represent 92% (2022: 93%) of total assets.

As at 30 June 2023, a 5% (2022: 5%) movement in the market value of the BKI portfolio would result in:

- A 5% movement in the net assets of BKI before provision for tax on unrealised capital gains (2022: 5%); and
- A movement of 8.1 cents per share in the net asset backing before provision for tax on unrealised capital gains (2022: 7.8 cents).

Notes to the Financial Statements (continued)

Note 15. Financial instruments (continued)

The performance of the companies within the portfolio, both individually and as a whole, is monitored by the Investment Committee and the Board.

BKI seeks to reduce market risk at the investment portfolio level by ensuring that it is not, in the opinion of the Investment Committee, overly exposed to one Group or one sector of the market.

At 30 June 2023 and 30 June 2022, the spread of investments was in the following sectors:

	Percentage of total investment		Amount	
	2023 %	2022 %	2023 \$'000	2022 \$'000
Financials	23.65	24.44	328,814	302,237

Cash, dividends and distributions receivable	8.26	6.50	114,819	80,495
Total portfolio	100.00	100.00	1,390,008	1,236,581

Securities representing over 5% of the investment portfolio at 30 June 2023 or 30 June 2022 were:

	Percentage of total investment		Amount	
	2023 %	2022 %	2023 \$'000	2022 \$'000
BHP Group	8.5	8.8	118,774	108,900
Macquarie Group	8.4	8.7	116,373	107,784
Commonwealth Bank	6.6	6.7	92,001	82,926
National Australia Bank	6.1	5.5	85,386	68,527
APA Group	6.1	8.0	85,034	98,899

The relative weightings of the individual securities and relevant market sectors are reviewed at each meeting of the Investment Committee and the Board, and risk can be managed by reducing exposure where necessary. There are no set parameters as to a minimum or maximum amount of the portfolio that can be invested in a single company or sector.

Foreign currency risk

The Group is not exposed to foreign currency risk as all investments are quoted in Australian dollars.

Notes to the Financial Statements (continued)

Note 15. Financial instruments (continued)

Interest rate risk

The Group is not materially exposed to interest rate risk. All cash investments are short term (up to 1 year) for a fixed rate, except for cash in operating bank accounts which are at-call and attract variable rates.

The Group has no financial liability as at 30 June 2023 (2022: Nil).

Liquidity risk

Liquidity risk is the risk that the Group is unable to meet financial obligations as they fall due.

The Group has no borrowings, and sufficient cash reserves to fund core operations at current levels for more than 10 years.

The Group's other major cash outflows are the purchase of securities and dividends paid to shareholders and the level of both of these is fully controllable by the Board.

Furthermore, the majority of the assets of the Group are in the form of readily tradeable securities which can be sold on-market if necessary.

Report on the Audit of the Financial Report Opinion

We have audited the accompanying financial report of BKI Investment Company Limited (the Company) and its controlled entities (together the Group), which comprises the consolidated statement of financial position as at 30 June 2023, the consolidated income statement, consolidated statement of other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and the directors' declaration of the Group comprising BKI Investment Company Limited and the entities it controlled at the year end or from time to time during the year.

In our opinion, the accompanying financial report of BKI Investment Company Limited and its controlled entities is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Group's financial position as at 30 June 2023 and of its performance for the year ended on that date; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.
- c) the financial report also complies with the *International Financial Reporting Standards* as disclosed in Note 2.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MGI refers to one or more of the independent member firms of MGI Worldwide. MGI Worldwide is a network of independent auditing, accounting and consulting firms. Each MGI firm in Australasia is a separate legal entity and has no liability for another Australasian or international member's acts or omissions. Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
<p>Valuation and Existence of Investments</p> <p>The investment portfolio as at 30 June 2023 comprised of listed equity investments of \$1,275.19 million.</p> <p>We focused on the valuation and existence of investments because investments represent the principal element of the net asset value disclosed on the Consolidated Statement of Financial Position in the financial report.</p>	<p>We tested the valuation of a representative sample of listed investments by vouching the share prices to external market information to ensure they are fairly stated.</p> <p>We agreed the existence of a representative sample of listed investments by confirming shareholdings with share registries.</p> <p>No material differences were identified.</p>
<p>Revenue from Investments</p> <p>ASAs presume there are risks of fraud in revenue recognition unless rebutted.</p> <p>We focused on the cut-off, accuracy and completeness of dividend revenue and dividend receivables.</p>	<p>We assessed the accounting policy for revenue recognition for compliance with the accounting standards and performed testing to ensure that revenue had been accounted for in accordance with the accounting policy.</p> <p>We found that the accounting policies implemented were in accordance with the accounting standards, and that revenue has been accounted for in accordance with the accounting policy.</p> <p>We tested the accuracy and completeness of dividend revenue by agreeing the dividends and distributions of a representative sample of investments to supporting documentation obtained from share registries.</p> <p>We tested the cut-off and completeness of dividend revenue and dividend receivables by checking the dividend details of a representative sample of investments from external market information and ensured that dividends that were declared before, but payable after, the reporting date were recorded.</p> <p>No material differences were identified.</p>

Other Information

The directors of the Company are responsible for the other information. The other information comprises the information in the annual report for the year ended 30 June 2023, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Auditor's Report (continued)

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 2, the directors also state, in accordance with Accounting Standard AASB 101: *Presentation of Financial Statements*, the financial statements comply with *International Financial Reporting Standards*.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial reports.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: https://www.auasb.gov.au/auditors_responsibilities/ar1.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included on pages 17 to 20 of the directors' report for the year ended 30 June 2023.

In our opinion, the Remuneration Report of BKI Investment Company Limited for the year ended 30 June 2023, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of BKI Investment Company Limited are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
